COEPD

Department: Elementary/Secondary Education

Degree Program: MA in Education; Instructional Technology and Learning

Type of Change: Change (Replace CIEC 610 with CIEC 615)

Credit Hours: 3

Effective Date: Spring 2018

Rationale: This request is to change the curriculum by replacing CIEC 610 Local Area Networks and Telecommunications with CIEC 615 Online Course Development and Delivery. This area of emphasis serves educators wanting to improve their use of technology in teaching within P-12 and higher education and individuals who want to work in roles such as Instructional Designers. In both cases, a course focused on Online Course Development and Delivery would better serve their needs versus the networking course. Personnel at the West Virginia Department of Education (WVDE) have confirmed that other individuals in their schools perform networking functions and express the need for a course focused on online course design. The WVDE requires a Blended Learning course in their Technology Integration Specialist program and have expressed a willingness to accept our course for this requirement.

SOM

Department: Research and Graduate Education

Degree Program: PhD in Biomedical Research

Type of Change: Change name of program/degree to Biomedical Research PhD

Effective Date: Fall 2017

Rationale: Replace Biomedical Sciences (BMS) with Biomedical Research (BMR) to distinguish from the newly created Department of Biomedical Sciences in the SOM and emphasize the research aspect of the degrees in the Office of Research and Graduate Education.

College of Health Professions

Course Addition (1)

Department: Physical Therapy

#ffitle: PT 799 Integration and Review

Description: Integration and review of clinical physical therapy principles and concepts in preparation for the National Physical Therapy Board Examination

Prerequisites: none

First Offered: Summer 2018

Credit Hours: 1

College of Education and Professional Development

Course Changes (1)

Change: Course Number

Department: Elementary and Secondary Education

#ffitle (old): CIEC 715 Online Course Development and Delivery

#ffitle **(new)**: CIEC 615

Rationale: 1. The class was initially created with doctoral candidates in mind and had reasonable enrollments when both CI and LS doc candidates had an area of emphasis/ specialization in their plans of study. LS candidates no longer have an option to take this course. 2. The last few times the course was offered it included about as many MA students in the Instructional Technology emphasis as CI doctoral students. A 600 level number would be more appropriate for MA candidates and wouldn't hurt doctoral candidates as an area of emphasis course.

Catalog Desc: This course offers participants the opportunity to explore strategies and issues related to the development and delivery of online courses.
